

Cop Lane C.E Primary School

Online Safety Policy 2026-2027

This policy is embedded in our school's mission statement and distinctive Christian vision:

A welcoming Christian community, committed to one another, giving our very best at all times.

Our church school is a welcoming and caring Christian family where everyone is valued and supported so that they can flourish. We aim to instill a lifelong love of learning and nurture everyone's individual talents. Through Jesus Christ, our aspirations, hopes and dreams can be achieved.

'I can do all things through Christ who strengthens me.'
Philippians 4.13

This policy is embedded in our school's mission statement and distinctive Christian vision.

Aims

Our school aims to:

- › Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- › Identify and support groups of pupils that are potentially at greater risk of harm online than others
- › Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
- › Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

- › **Content** – being exposed to illegal, inappropriate or harmful content, such as pornography, misinformation, disinformation (including fake news), conspiracy theories, racism, misogyny, self-harm, suicide, antisemitism, radicalisation and extremism
- › **Contact** – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit the user for sexual, criminal, financial or other purposes
- › **Conduct** – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and
- › **Commerce** – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

Legislation and Guidance

This policy is based on the Department for Education's (DfE's) statutory safeguarding guidance, [Keeping Children Safe in Education](#), and its advice for schools on:

- › [Teaching online safety](#)
- › [Meeting digital and technology standards](#)
- › [Preventing and tackling bullying](#) and [cyber-bullying: advice for headteachers and school staff](#)
- › [Relationships and sex education \(RSE\) and health education](#)
- › [Searching, screening and confiscation](#)

It also refers to the DfE's guidance on [protecting children from radicalisation](#).

It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects the [Education Act 2011](#), which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

The policy also takes into account the National Curriculum computing programmes of study.

Roles and Responsibilities

The governing board

The governing board has overall responsibility for monitoring this policy and holding the headteacher to account for its implementation.

The governing board will make sure all staff undergo online safety training as part of child protection and safeguarding training, and ensure staff understand their expectations, roles and responsibilities around filtering and monitoring.

The governing board will also make sure all staff receive regular online safety updates (via email, e-bulletins and staff meetings), as required and at least annually, to ensure they are continually provided with the relevant skills and knowledge to effectively safeguard children.

The governing board will co-ordinate regular meetings with appropriate staff to discuss online safety and requirements for training and monitor online safety logs as provided by the designated safeguarding lead (DSL).

The governing board will make sure that the school teaches pupils how to keep themselves and others safe, including online.

The governing board will make sure that the school has appropriate filtering and monitoring systems in place on school devices and school networks, and will regularly review their effectiveness. The board will review the [DfE's filtering and monitoring standards](#), and discuss with IT staff and service providers what needs to be done to support the school in meeting the standards, which include:

- › Identifying and assigning roles and responsibilities to manage filtering and monitoring systems
- › Reviewing filtering and monitoring provisions at least annually
- › Blocking harmful and inappropriate content without unreasonably impacting teaching and learning
- › Having effective monitoring strategies in place that meet the school's safeguarding needs

The governor who oversees online safety is Mrs H. Cookson.

All governors will:

- › Make sure they have read and understand this policy
- › Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet (appendix 2)
- › Make sure that online safety is a running and interrelated theme when devising and implementing the whole-school or college approach to safeguarding and related policies and/or procedures
- › Make sure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with special educational needs and/or disabilities (SEND). This is because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

The headteacher

The headteacher is responsible for making sure that staff understand this policy, and that it is being implemented consistently throughout the school.

The designated safeguarding lead (DSL)

Details of the school's designated safeguarding lead (DSL) and deputies are set out in our child protection and safeguarding policy, as well as relevant job descriptions.

The DSL takes lead responsibility for online safety in school, in particular:

- › making sure that staff understand this policy and that it is being implemented consistently throughout the school.
- › Working with the governing board to review this policy annually and make sure the procedures and implementation are updated and reviewed regularly.
- › Taking the lead on understanding the filtering and monitoring systems and processes in place on school devices and school networks.
- › Providing governors with assurance that filtering and monitoring systems are working effectively and reviewed regularly.
- › Working with the ICT manager to make sure the appropriate systems and processes are in place.
- › Working with the headteacher, ICT manager and other staff, as necessary, to address any online safety issues or incidents.
- › Managing all online safety issues and incidents in line with the school's child protection policy.
- › Responding to safeguarding concerns identified by filtering and monitoring
- › Making sure that any online safety incidents are logged (see appendix 3 for an example of headings to record) and dealt with appropriately in line with this policy.
- › Making sure that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school behaviour policy.
- › Updating and delivering staff training on online (see appendix 4 of example staff audit questions).
- › Liaising with other agencies and/or external services if necessary.
- › Providing regular reports on online safety in school to the headteacher and/or governing board.
- › Undertaking annual risk assessments that consider and reflect the risks pupils face.
- › Providing regular safeguarding and child protection updates, including online safety, to all staff, at least annually, in order to continue to provide them with relevant skills and knowledge to safeguard effectively.

This list is not intended to be exhaustive.

The lead DSL in conjunction with LCC Digital Services and support from Dakol

The lead DSL in conjunction with LCC Digital Services and support from DAKOL is responsible for:

- › Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems on school devices and school networks, which are reviewed and updated at least annually to assess effectiveness and make sure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material.
- › Making sure that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly.
- › Conducting a full security check and monitoring the school's ICT systems on monthly basis
- › Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files.
- › Making sure that any online safety incidents are logged (see appendix 3 for an example of headings to record) and dealt with appropriately in line with this policy.

- › Making sure that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy.

This list is not intended to be exhaustive.

All staff and volunteers

All staff, including contractors and agency staff, and volunteers are responsible for:

- › Maintaining an understanding of this policy
- › Implementing this policy consistently (see appendix 2)
- › Knowing that the DSL is responsible for the filtering and monitoring systems and processes and being aware of how to report any incidents of those systems or processes failing by informing Mr I. Ashmore.
- › Following the correct procedures by contacting Mr I. Ashmore if they need to bypass the filtering and monitoring systems for educational purposes.
- › Working with the DSL to make sure that any online safety incidents are logged and dealt with appropriately in line with this policy.
- › Making sure that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy.
- › Responding appropriately to all reports and concerns about sexual violence and/or harassment, both online and offline, and maintaining an attitude of 'it could happen here'.

This list is not intended to be exhaustive.

Parents/carers

Parents/carers are expected to:

- › Notify a member of staff or the headteacher of any concerns or queries regarding this policy.
- › Supporting the school's and pupils' understanding of the acceptable use terms for the school's ICT systems and the internet. (Appendix 2)

Parents/carers can seek further guidance on keeping children safe online from the following organisations and websites:

- › What are the issues? – [UK Safer Internet Centre](#)
- › Help and advice for parents/carers – [Childnet](#)
- › Parents and carers resource sheet – [Childnet](#)

Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use (appendix 2).

Educating pupils about online safety

Pupils will be taught about online safety as part of the curriculum

All schools have to teach:

- › [Relationships education and health education](#) in primary schools

In **Key Stage (KS) 1**, pupils will be taught to:

- › Use technology safely and respectfully, keeping personal information private.
- › Identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies.

Pupils in **Key Stage (KS) 2** will be taught to:

- › Use technology safely, respectfully and responsibly.
- › Recognise acceptable and unacceptable behaviour.
- › Identify a range of ways to report concerns about content and contact.
- › Be discerning in evaluating digital content.

By the **end of primary school**, pupils will know:

- › That people should be respectful in online interactions, and that the same principles apply to online relationships as to face-to-face relationships, including where people are anonymous. For example, the importance of avoiding putting pressure on others to share information and images online, and strategies for resisting peer pressure.
- › How to critically evaluate their online relationships and sources of information, including awareness of the risks associated with people they have never met. For example, that people sometimes behave differently online, including pretending to be someone else, or pretending to be a child, and that this can lead to dangerous situations. How to recognise harmful content or harmful contact, and how to report this.
- › That there is a minimum age for joining social media sites (currently 13), which protects children from inappropriate content or unsafe contact with older social media users, who may be strangers, including other children and adults.
- › The importance of exercising caution about sharing any information about themselves online. Understanding the importance of privacy and location settings to protect information online.
- › Online risks, including that any material provided online might be circulated, and that once a picture or words has been circulated there is no way of deleting it everywhere and no control over where it ends up.
- › That the internet contains a lot of content that can be inappropriate and upsetting for children, and where to go for advice and support when they feel worried or concerned about something they have seen or engaged with online.

All schools:

- › The safe use of social media and the internet will also be covered in other subjects where relevant.
- › Where necessary, teaching about safeguarding, including online safety, will be adapted for vulnerable children, victims of abuse and some pupils with SEND.

Pupils will be taught practical cyber security skills

All pupils will receive age-appropriate training on safe internet use, including:

- › Methods that hackers use to trick people into disclosing personal information
- › Password security
- › Social engineering
- › The risks of removable storage devices (e.g. USBs)
- › Multi-factor authentication
- › How to report a cyber incident or attack
- › How to report a personal data breach

Pupils will also receive age-appropriate education on safeguarding issues such as cyberbullying and the risks of online radicalisation.

Educating parents/ carers about online safety

The school will raise parents'/carers' awareness of internet safety in letters or other communications home, and in information via our website/ social media feed. This policy will also be shared with parents/carers.

Online safety will also be covered during Autumn term parent information PowerPoints.

The school will let parents/carers know:

- › What systems the school uses to filter and monitor online use
- › What their children are being asked to do online, including the sites they will be asked to access and who from the school (if anyone) their child will be interacting with online

If parents/carers have any queries or concerns in relation to online safety, these should be raised in the first instance with the headteacher and/or the DSL.

Concerns or queries about this policy can be raised with any member of staff or the headteacher.

Cyber-bullying

Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of 1 person or group by another person or group, where the relationship involves an imbalance of power. (See also the school behaviour policy.)

Preventing and addressing cyber-bullying

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and encourage them to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. Class teachers will discuss cyber-bullying with their classes.

Teaching staff are also encouraged to find opportunities to use aspects of the curriculum to cover cyber-bullying. This includes personal, social, health and economic (PSHE) education, and other subjects where appropriate.

All staff, governors and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training.

The school also sends information/leaflets on cyber-bullying to parents/carers so they are aware of the signs, how to report it and how they can support children who may be affected.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the school behaviour policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSL will report the incident and provide the relevant material to the police as soon as is reasonably practicable, if they have reasonable grounds to suspect that possessing that material is illegal. They will also work with external services if it is deemed necessary to do so.

Examining electronic devices

The headteacher, and any member of staff authorised to do so by the headteacher (as set out in our behaviour policy), can carry out a search and confiscate any electronic device that they have reasonable grounds for suspecting:

- › Poses a risk to staff or pupils, and/or
- › Is identified in the school rules as a banned item for which a search can be carried out, and/or
- › Is evidence in relation to an offence

Before a search, if the authorised staff member is satisfied that they have reasonable grounds for suspecting any of the above, they will also:

- › Make an assessment of how urgent the search is, and consider the risk to other pupils and staff. If the search is not urgent, they will seek advice from (the headteacher/ DSL/ appropriate staff member).
- › Explain to the pupil why they are being searched, and how the search will happen; and give them the opportunity to ask questions about it.
- › Seek the pupil's co-operation

Authorised staff members may examine, and in exceptional circumstances erase, any data or files on an electronic device that they have confiscated where they believe there is a 'good reason' to do so.

When deciding whether there is a 'good reason' to examine data or files on an electronic device, the staff member should reasonably suspect that the device has, or could be used to:

- › Cause harm, and/or
- › Undermine the safe environment of the school or disrupt teaching, and/or
- › Commit an offence

If inappropriate material is found on the device, it is up to (the staff member in conjunction with the DSL (back up DSLs)/ headteacher / other member of the senior leadership team in Headteacher's absence) to decide on a suitable response. If there are images, data or files on the device that staff reasonably suspect are likely to put a person at risk, they will first consider the appropriate safeguarding response.

When deciding whether there is a good reason to erase data or files from a device, staff members will consider if the material may constitute evidence relating to a suspected offence. In these instances, they will not delete the material, and the device will be handed to the police as soon as reasonably practicable. If the material is not suspected to be evidence in relation to an offence, staff members may delete it if:

- › They reasonably suspect that its continued existence is likely to cause harm to any person, and/or
- › The pupil and/or the parent/carer refuses to delete the material themselves

If a staff member **suspects** a device **may** contain an indecent image of a child (also known as a nude or semi-nude image), they will:

- › **Not** view the image
- › Confiscate the device and report the incident to the DSL (or equivalent) immediately, who will decide what to do next. The DSL will make the decision in line with the DfE's latest guidance on [screening, searching and confiscation](#) and the UK Council for Internet Safety

(UKCIS) guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Any searching of pupils will be carried out in line with:

- › The DfE's latest guidance on [searching, screening and confiscation](#)
- › UKCIS guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)
- › Our behaviour policy

Any complaints about searching for or deleting inappropriate images or files on pupils' electronic devices will be dealt with through the school complaints procedure.

Artificial intelligence (AI)

Generative AI tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Gemini.

Cop Lane C.E. Primary School recognises that AI has many uses to help pupils learn, but may also have the potential to be used to bully others. For example, in the form of 'deepfakes', where AI is used to create images, audio or video hoaxes that look real. This includes deepfake pornography: pornographic content created using AI to include someone's likeness.

Cop Lane C.E. Primary School will treat any use of AI to bully pupils very seriously, in line with our anti-bullying/behaviour policy.

Staff should be aware of the risks of using AI tools while they are still being developed and should carry out a risk assessment where new AI tools are being used by the school, and where existing AI tools are used in cases which may pose a risk to all individuals that may be affected by them, including, but not limited to, pupils and staff.

Any use of artificial intelligence should be carried out in accordance with our AI usage policy.

Acceptable use of the internet in school

All pupils, parents/carers, staff, volunteers and governors are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet (appendix 2). Visitors will be expected to read and agree to the school's terms on acceptable use, if relevant.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors (where relevant) to ensure they comply with the above and restrict access through filtering systems where appropriate.

More information is set out in the acceptable use agreements in appendix 2.

Pupils using mobile devices in school

In general, pupils must not bring phones to school. However, we recognise that some older pupils travel to and from school independently. Where a pupil does bring a mobile phone, it must be handed in at the school office at the start of the school day and collected at the end of the school day.

Any breach of the mobile phone policy by a pupil may trigger disciplinary action in line with the school behaviour policy, which may result in the confiscation of their device.

Staff using work devices outside school

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- › Keeping the device password-protected – strong passwords can be made up of 3 random words, in combination with numbers and special characters if required, or generated by a password manager
- › Ensuring their hard drive is encrypted – this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device
- › Making sure the device locks if left inactive for a period of time
- › Not sharing the device among family or friends
- › Installing anti-virus and anti-spyware software
- › Keeping operating systems up to date by promptly installing the latest updates

Staff members must not use the device in any way that would violate the school's terms of acceptable use, as set out in appendix 2.

Work devices must be used solely for work activities.

If staff have any concerns over the security of their device, they must seek advice from the Headteacher.

How the school will respond to issues of misuse

Where a pupil misuses the school's ICT systems or internet, we will follow the procedures set out in our policies on behaviour and ICT and internet acceptable use. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate. Where a staff member misuses the school's ICT systems or the internet or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the staff disciplinary procedures / staff code of conduct. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents that involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

Training for staff, governors and volunteers

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues, including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings).

By way of this training, all staff will be made aware that:

- › Technology is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse
- › Children can abuse their peers online through:
 - Abusive, threatening, harassing and misogynistic messages
 - Non-consensual sharing of indecent nude and semi-nude images and/or videos, especially around chat groups

- Sharing of abusive images and pornography, to those who don't want to receive such content
- › Physical abuse, sexual violence and initiation/hazing type violence can all contain an online element

Training will also help staff:

- › Develop better awareness to assist in spotting the signs and symptoms of online abuse
- › Develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh up the risks
- › Develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The DSL deputies will undertake child protection and safeguarding training, which will include online safety, at least every 2 years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy.

Monitoring arrangements

The DSL logs behaviour and safeguarding issues related to online safety. An example of an incident report log can be found in appendix 3.

This policy will be reviewed annually by the Headteacher. At every review, the policy will be shared with the governing board. The review will be supported by an annual risk assessment that considers and reflects the risks pupils face online. This is important because technology, and the risks and harms related to it, evolve and change rapidly.

Links with other policies

This online safety policy is linked to our:

- › Child protection and safeguarding policy
- › Behaviour policy
- › Staff disciplinary procedures
- › Data protection policy and privacy notices
- › Complaints procedure
- › Acceptable use policy

This policy was adopted by the Governing Body in September 2026.

It will be reviewed again in September 2027 or sooner if required.

Signed:

I. P. Ashmore

EYFS Acceptable Use Policy

Cop Lane C.E Primary School

Acceptable Use Policy – KS1

Our Technology Rules

I will follow these rules to use computers, tablets and the internet safely at school. These rules help us all stay safe and have fun using computers and tablets at school!

Staying Safe

- My teacher will watch what I do on computers, tablets and the internet to keep me safe.
- I will keep my passwords secret and tell my teacher if I need help.
- I understand that people online are not always who they say they are. I will only talk to people online if my teacher or a trusted adult says it's OK.
- I will not share my name, address, or pictures without asking my teacher or a trusted adult first.
- If I see something that makes me feel worried or upset, I will tell my teacher or a trusted adult straight away.
- I will only use apps, games or websites my teacher says are safe.

Using Technology Kindly

- I will be kind when using technology, just like I am in real life.
- I will take care of the computers and tablets I use.
- I will only look at things my teacher says are OK.

Making Good Choices

- I will ask my teacher before I use someone else's pictures or work.
- I will take breaks from screens and do other fun things too.
- I know that I can say no / please stop to anyone online who makes me feel sad, uncomfortable, embarrassed or upset.
- I will ask for help from a trusted adult if I am not sure what to do or if I think I may have done something wrong.

What Happens If I Forget the Rules

- If I forget the rules, my teacher will help me learn to make better choices next time.

Name of Student / Pupil.....

Pupil Signature.....

Cop Lane C.E Primary School
Acceptable Use Policy – KS2

Acceptable Use Policy Agreement

I agree to use the school's digital systems safely and responsibly to protect me, other learners and the school.

Keeping Safe Online

- The school will check how I use devices and the internet to keep everyone safe.
- I will keep my usernames and passwords private and tell a trusted adult if someone else knows them.
- I will be careful when talking to people online and will only talk to people I know and trust.
- I will not share personal information like my name, address, or photos without asking a trusted adult.
- I will only take or share images of myself, or others, when fully dressed.
- If I see or hear something online that worries or upsets me, I will tell a trusted adult straight away.
- I will only meet people I have spoken to online if a trusted adult is with me.

Using Computers and the Internet Sensibly

- I will only use devices, apps and sites that I am allowed to, and will check if I am unsure.
- I will always ask permission and check with a trusted adult before using someone else's work or pictures.
- I will make sure the information I find online is true by checking carefully.
- I will only use apps or tools, like AI, that my teacher has said are OK, and I will ask for help if I'm unsure.
- I will not copy or use music, videos, or games unless I have permission.
- I will tell a trusted adult about any damage to devices or if anything else goes wrong.
- I will check with trusted adults before clicking on any unexpected messages or links (even if these look as though they are from people that I already know).

Being Respectful and Responsible

- I will treat others kindly online, just as I do in real life.
- I will make good choices about what I share online to protect myself and others.
- I will spend a healthy amount of time using devices and make time for other activities too.
- I will always think about how my behaviour online could affect me, my friends, and my school.

What Happens If I Break These Rules?

- If I don't follow these rules, my teacher may stop me from using computers or devices, speak to my parents, or take other actions to help me make better choices in the future.

By following these rules, I can enjoy using technology safely and responsibly.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I am out of school and involved in any online behaviour that might affect the school or other members of the school.

Pupil Signature.....

Acceptable Use Policy – Staff, Governors, Volunteers and Visitors

School Policy

Digital technologies have become integral to the lives of everyone, including children and young people , both within schools and in their lives outside school. The internet and digital technologies are powerful tools, which can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. The school has the right to protect itself and its systems and all users should have an entitlement to safe access to the internet and digital technologies at all times.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while online and using digital technologies for educational, personal and recreational use
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

When using the school's ICT systems and accessing the internet in school, or outside school on a work device (if applicable), I will not:

- Access, or attempt to access inappropriate material, including but not limited to material of a violent, criminal or pornographic nature (or create, share, link to or send such material)
- Use them in any way that could harm the school's reputation
- Access social networking sites or chat rooms
- Use any improper language when communicating online, including in emails or other messaging services
- Install any unauthorised software, or connect unauthorised hardware or devices to the school's network
- Share my password with others or log in to the school's network using someone else's details

- Take photographs of pupils without checking with teachers first
- Share confidential information about the school, its pupils or staff, or other members of the community
- Access, modify or share data I'm not authorised to access, modify or share
- Promote private businesses, unless that business is directly related to the school

I will only use the school's ICT systems and access the internet in school, or outside school on a work device, for educational purposes or for the purpose of fulfilling the duties of my role.

I agree that the school will monitor the websites I visit and my use of the school's ICT facilities and systems.

I will take all reasonable steps to ensure that work devices are secure and password-protected when using them outside school, and keep all data securely stored in accordance with this policy and the school's data protection policy.

I will let the designated safeguarding lead (DSL) and ICT manager know if a pupil informs me they have found any material that might upset, distress or harm them or others, and will also do so if I encounter any such material.

I will always use the school's ICT systems and internet responsibly and ensure that pupils in my care do so too.

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use agreement applies to my use of digital technologies related to my professional responsibilities, within or outside of the school.
- I will ensure my use of technologies and platforms is in line with the school's agreed codes of conduct.
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors and/or the Local Authority in the event of illegal activities, the involvement of the Police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of the school) and my own devices (in the school and when carrying out communications related to the school) within these guidelines.
